PROCEDURAL GUIDELINES FOR THE CURRICULUM REVIEW COUNCIL

Purpose and Membership

The Curriculum Review Council exists primarily to serve the President in an advisory capacity on curricula matters and standards. It reviews all proposals received relative to course offerings, curricula, and related topics and forwards them to the President with recommendations for his approval. The council also undertakes assignment of any study of curriculum-related matters considered necessary by the President and/or Provost and Vice President for Academic and Student Affairs.

The membership of the Curriculum Review Council consists of the following individuals: fourteen faculty members, to include representatives from each of the colleges, appointed by Deans; a faculty representative selected by the Faculty Senate; President of the Student Government Association; the Provost and Vice President for Academic and Student Affairs, who chairs the Council; the Executive Director of Fort Polk Center; the University Registrar; and the Director of University Libraries. A member of the Council who is unable to attend a meeting may assign his or her proxy to a full-time faculty member from the same unit he or she is representing on the Council.

General Procedures

Proposals relating to course offerings, curricula, and similar matters may originate with any full-time faculty member of an academic department. A dated copy of each proposal is to be submitted to the department head or director, who then distributes copies to a curriculum committee, composed of faculty representing various disciplines within the academic unit. Distribution of proposals should be made so as to provide ample time for thoughtful evaluation prior to the meetings at which they will be considered.

The actions proposed by faculty within one academic unit may have unforeseen effects in other units. These effects should be anticipated to the greatest degree possible, and the advice and counsel of the affected parties should be sought and given due consideration. In general, faculty and academic unit administrators are encouraged to discuss proposals with representatives of other units whenever the proposals affect or involve courses or requirements in the other units.

The department head or director then forwards a proposal initiated within a department and approved by its curriculum committee to the academic dean for approval. Proposals meeting the deans’ approval are then submitted to the University Registrar’s Office. Proposals affecting undergraduate or graduate teacher education course offerings or programs are also to be submitted to the
The Teacher Education Council (TEC); those affecting graduate courses or programs are also to be submitted to the Graduate Council. The chairs of the Teacher Education Council and Graduate Council then notify the University Registrar's Office of action taken with respect to the proposals.

On occasion, a department head or director, as the academic leader of his or her unit, may feel it necessary to propose to the council a curricular change that was not approved by the unit’s curriculum committee. In such instances, the proposal should be approved by the academic dean; and include such notation and justification for further review by the Curriculum Review Council.

**Meeting Dates and Timelines**

The Curriculum Review Council typically meets at 3:15 p.m. on the fourth Tuesday of the following months: August, September, October, November, January, and February. Special meetings or telephone polls may be conducted due to extenuating circumstance only when authorized by the Curriculum Review Council. To be included on the agenda for a Council meeting, a finalized proposal along with all required forms and justification MUST be on file in the University Registrar’s Office TWO WEEKS prior to the meeting date. If all required forms and written justification for proposals are not submitted by the established due date, the proposal will not be placed on the agenda for that month. Proposals must be submitted by this due date in order to provide time for distribution of the proposals and for Council members to evaluate them prior to the meeting.

**Format of Proposals**

Proposals submitted to the Council generally relate to one of the following: Adding a new course; changing the description of an existing course; deleting an existing course; initiating a new degree program or concentration; revising an existing curriculum; deleting an existing curriculum; or modifying catalog narrative pertaining to a specific department.
